REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board and Citizens of Swanzey:

I have the honor to submit my thirteenth annual report.

Teachers: There was one change in our teaching staff at the Mt. Caesar School. Miss Dorothy E. Wallace, a graduate of Keene Teachers College, replaced Mrs. Nancy L. Darsinos in one of the first grades.

There were two changes at the Cutler School. Mrs. Joanne B. Saville, who taught in Hinsdale last year, replaced Miss Theresa Ann Martin in grades seven and eight. Mrs. Saville is a graduate of Plymouth Teachers College. Mr. Gordon W. Bean, a graduate of Keene Teachers College, was elected to the seventh and eighth grade position vacated by Mr. Charles A. Gilman who is currently teaching in Winchester.

As was predicted in last year's report, our present enrollments are taxing the facilities of the Cutler and Mt. Caesar Schools. A glance at the above table, projecting enrollments for the next three years, shows that the problem is not easing.

At the same time, projected high school enrollments show a definite increase over the years ahead. It should be realized that these projected high school figures are undoubtedly too high since they include pupils who may leave school between grades nine and twelve. Nevertheless, they do point up the fact that the number of high school pupils will become larger. Because of this and also due to constantly increasing tuition costs, the tuition item in the school budget will continue to grow.

The Swanzey School Planning Committee and Swanzey School Board are fully aware of Swanzey's school problems, both elementary and secondary. They are sincerely striving to find the best possible solution to these problems.

Last year the formation of a cooperative school district

involving Hinsdale, Richmond, Swanzey and Winchester was attempted but the project failed. Other neighboring towns have since evidenced an interest in the formation of such a district and meetings have been held to discuss its possibility.

Since any decisions involving the Swanzey schools will affect them for many years to come, the school planning committee and school board have decided that a survey to be made by a firm of educational consultants would be a sound investment. Dr. N. L. Engelhardt, Jr. of the educational consultant firm of Engelhardt, Engelhardt, Leggett and Cornell has been to Swanzey twice to outline the services which his firm is prepared to perform. The voters will decide whether or not such a survey should be made. The study would include the following:

1. Analysis of the possibilities of developing a cooperative school district both for all grades or for secondary school alone.

2. Study of the desirability of any combination of districts consolidating or of any district maintaining a separate school organization.

3. Analysis of the present school buildings with regard to safety, sanitation, obsolescence, and adaptability to present and future educational programs.

4. Report on child population trends based upon an analysis of total population trends, number of births, residential growth and school enrollment statistics over a period of years.

5. Recommendation of a future school site and building program, including estimates of the cost of construction of essential facilities, the cost of operation of the school system, with estimates of tax rates both for going it alone and as a cooperative district, or in any combinations that seem to be advantageous or worthy of consideration.

6. Conferring with State Department officials in conjunction with the proposed recommendations.

7. During the course of the survey the Consultants may confer with such officials, lay citizens and groups as may be necessary in accomplishing their purpose.

8. The broad implications of the curriculum of the schools will be studied by the Consultants in the course of the survey for the purpose of ascertaining the influence of curriculum developments upon new school building planning.

The ability grouping which was initiated last year has been extended to the primary grades at the Mt. Caesar School. A trend in this direction is observable in other school systems. Our school system is not stagnant and is a forerunner in constantly attempting to improve our instructional program.

Considerable work was done on our school buildings this summer. The Wilcox School was painted as was the trim at the Mt. Caesar School. Exterior painting was done at the Cutler School, also. A fire escape for each room in the old wooden part of the Cutler School was built to allow rapid egress in case of fire.

The National Defense Education Act is making it possible for school districts to obtain monetary assistance in improving instruction in Mathematics, Science and Modern Foreign Languages. The Swanzey School District is taking advantage of this opportunity which makes funds available on a matching basis.

In conclusion, I wish to express my appreciation to the teachers, pupils and parents, the School Planning Committee, the School Board, and the patrons of our schools for their cooperation.

Respectfully submitted,
CHESTER C. LEES,
Superintendent of Schools.

PREVENTION IS EVERYBODY'S BUSINESS

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple—

1. Before burning, secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles—use your ash tray.
5. Don't burn at home—Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires 13

Number of acres burned 6½

Number of permits issued 156

CORNELIUS WOOD, District Fire Chief.

HERBERT PUFFER, Forest Fire Warden.
